

Academic Strength Information

Your teachers have gotten to know you very well, but after having many students, it can be hard to remember specific moments with each student individually. This document will help your teachers in writing you a strong letter of recommendation. Please type up answers to the questions below and submit the document to your teacher recommender if they request.

1. Explain why you chose them to write you a letter of recommendation.
2. Describe what you have learned from them through the years in their class. This can be academic or related to personal skills.
3. Describe a moment in their class that sticks out in your memory. What happened? Why does this moment stand out? Feel free to give more than one example.
4. Talk about your best/worst moments in their class. Talk about your growth as a student.
5. Identify a specific or multiple characteristic(s)/strength(s) you feel you have demonstrated in their class.
6. Inform them of your career/post-high school goals.
7. Thank them, thank them, and thank them!
